

In Shaft Goods Hoist

Our In Shaft Goods Hoist is a cost effective alternative to a traditional lift with minimal pit and overrun requirements. We offer the capability to lift goods of up to 10,000 kg, to fifth floor heights. Our flexible design capabilities and local manufacturing means we can provide goods-only as well as goods and personnel hoists in a variety of platform finishes and other options, including custom designs for special applications.

Features and Benefits

- ✓ Goods only or goods and personnel
- ✓ Cost effective alternative to a traditional lift
- ✓ Installed external or internal to the building
- ✓ Minimal pit and overrun required
- ✓ Low maintenance costs
- ✓ Vertically opening doors offering clear access for any load
- ✓ Self diagnostic programmable logic control (PLC)
- ✓ Internal power pack
- ✓ Fully Compliant with AS 1418 Parts 1 & 8, AS 5246 Part 1, Classification A6, and all WHS regulations.

Southwell Engineering

Southwell is a proud, family owned company. Since 1945 we've been engineering and manufacturing high-quality hoists and scissor lift products at Camden, New South Wales, delivering and installing them around Australia, New Zealand and the world. We design registered one of the original Australian hoist designs and we've continued to innovate with creations like our Car Lift with Integrated Turntable, adding neatly to our standard range of Car Lifts and Goods Hoists.

Our commitment:

- Reliability
- Built tough
- 100% Australian engineered and manufactured
- Local spare parts
- Service support by our factory-trained technicians
